Beth,

Per our conversation, I am trying to ascertain the final Releasability decision on the attached documents.

During inter-agency consultation on a previous EPA FOIA, our attorney Matt Harris and Jay Clement had no objection to Jay's email being released, but I would like to verify exactly what was released. That document is now in a potentially responsive collection assembled to respond to a current FOIA request sent to USACE by Mr. Kevin Cassidy , Earthrise Law Center on behalf of the Sierra Club for this project.

Your assistance is appreciated.
